

Medical Alchemy Conference
Hosted by the Green Lion Society:
Alchemy as a Unifying Theory of Medicine
At Bastyr University (Kenmore, WA)
June 7th, 2008

The Green Lion Society is a not for profit organization that is dedicated to the education of, advocating for, and practical applications of Traditional Medical Alchemy. The student club branch of this group at Bastyr University (www.bastyr.edu) is in the process of organizing a Medical Alchemy Conference to take place the weekend of June 7th, 2008 on campus (14500 Juanita Dr. NE Kenmore, WA 98028-4966). This letter is intended to invite potential speakers to present at this year's Medical Alchemy Conference.

This shall be a one day event, unless the number of speakers demands that there be an expansion into two days; in that case the conference would then take place on both June 7th and 8th of 2008. Although all subjects of Alchemy and Traditional Medicines are welcome (herbal, spagyrics, metallic, magic, Native Healing practices, est.) the theme and title of this year's conference is *Alchemy as a Unifying Theory of Medicine*. All related points of view and presentations are welcome. This conference will be open to the Bastyr community as well as the public. Each invited speaker will have the opportunity to give a one hour lecture or demonstration during the program. There will also be a round table session of the invited speakers to discuss subjects such as the potential engenderment of an American Alchemist's Guild, the revitalization of Paracelsus College (USA), and other Vital issues to be addressed.

You are invited by the Green Lion Society to present at this conference! If you are interested, please contact ASAP with any questions, concerns, and what specific accommodations are needed to secure you as a presenter at this exciting event. We look forward to your reply! Please also notify if you do not plan to be involved with this event.

Alchemically,
Gabriel Quinn Maroney and the Medical Alchemy Conference Planning Committee.
